Command Philosophy

Balance – Maintain a balance in your life. Take time for family, relaxation as well as work. Time is something you can never get back.

Empowerment – Your program is yours, I expect it to be managed and operated in a professional manner.

Standards – Foundation for success in the Army is discipline, how we measure success is how well our soldiers meet the standard. Know the standards, lead by example.

Teamwork – Team beats self every time.

No one can Medevac themselves!

Are you a team player?

Big

Thank You
